

The World's Most Advanced Battery Charger! Longer Battery Life, Less Maintenance! Simply the best chargers for automobiles, motorcycles, atv's, boats, planes, golf carts, rv's, tractors, and more!

Rider Magazine: Product of the Year! Rated #1 by Motorcycle Consumer News. The #1 Selling Charger in the U.S. Powersports Industry! Endorsed & Recommended by the Motorcycle Mechanics Institute (MMI) & the American Motorcycle Institute (AMI).

All Battery Tender battery chargers are designed to fully charge and maintain a wide range of styles of lead acid batteries in ways that avoid the potential damaging effects that can be caused by most trickle chargers. All Battery Tender battery chargers have the five following characteristics:

- 1) Fully Automatic: At the end of the regular charger cycle, every Battery Tender battery charger automatically switches its output voltage to a safe, storage or float level that eliminates the need to constantly check on the conditions of the battery.
- 2) Full Output Power at Low AC Line Conditions: Battery Tender battery chargers will deliver full output power with input AC line voltages as low as 90 VAC. (Excluding chargers with output current of 2 amps or less).
- 3) Zero to Minimal Current Draw from Batteries: When the AAC power is disconnected, most Battery Tender . battery chargers draw zero current from the battery. A few of the higher power models draw less than 1 milliamp from the battery
- 4) Compact, Lightweight Construction: At any given power level, Battery Tender battery chargers offer some of the highest charging power density in the industry.
- 5) Visual Indication of Charge State: Every Battery Tender battery charger has some combination of colored lights to indicate the progress of charging.

The Battery Tender Plus is a 1.25 amp battery charger designed to fully charge a battery and maintain it at proper storage voltage without the damaging effects caused by trickle chargers. Included is a quick connect harness for hard to reach areas.

**Battery Tender Plus \$79.95 each**

79.95

Once again the engineers at Deltran have led the way in innovation and convenience by introducing the new for 2003 & 2004 waterproof Battery Tender. This compact 800 mA battery charger has all the charge characteristics of its cousin the Battery Tender Junior. The new unit incorporates surface mounted circuit board componentry along with total epoxy encapsulation.

**Battery Tender Waterproof \$59.95 each**

59.95

Battery Tender Junior's lightweight, compact size makes it ideal for those hard-to-fit spots. The trickle charger with a brain will assure batteries are maintained after charging and allows ready to go! 750mA

**Battery Tender JR. \$39.95 each**

12 volt & 6 Volt

39.95

Battery Tender Twin. This amazing charger has lights, sound and actually is two separate chargers . All the features of the regular Battery Tender line plus an incredible package. 800mA

**BT Twin \$209.74**

209.74
